

## Why save your own seeds?

- *Learn ancient seed saving skills*
- *Create locally-adapted varieties suited to your growing space*
- *Protect and preserve heritage varieties that are under threat*
- *Create a resilient local food system*
- *Think global, act Local - join a global network resisting corporate control of world seed stocks.*

Interested in finding out more?

**London Freedom Seed Bank** are a voluntary grass-roots network of food growers and gardeners dedicated to saving, storing and distributing organic vegetable seeds. We are creating a living seed bank for storing and preserving seeds grown and saved in London. We are recruiting new members to learn about the lost art of seed saving, to grow varieties for the seed bank, and to help build community resilience.
